## COUNTRYWOOD RESIDENTS

February 2025

Website: Propertyworx.com/countrywoodhills

Now that we had our first meeting of 2025, mark your calendar for every 4<sup>th</sup> Wednesday of each month to join the monthly Board meeting in 2024 to share your comments, concerns, suggestions or to meet your neighbors (via zoom). We would like to hear from you!

We have had a lot of new people move in this past year and you should have received email/letter from PropertyWorx to update your registration info. If you have not received them, please be sure to contact PropertyWorx to update your information at <a href="mailto:admin@propertyworx.com">admin@propertyworx.com</a> or by calling the phone number at the bottom of the page. It is important to have your notification information up to date at all times.

To ALL dog OWNERS...please be responsible and clean up after your dog has done their business. This includes your island, behind your unit and in all common areas. It is very disrespectful to leave piles of poop around our community. It looks and smells awful and irritating when someone steps in your dog poop just to name a few things that are wrong with this. There are dog stations around the community with bags, that we PAY to be stocked with doggie bags and emptied for all dog owners. Please help keep the community cleaned.

Winter holiday decorations should be down and stored away for the season. Leaving seasonal decoration outside well past the season does not give a good impression for the community.

We are in this together! If you see someone dropping boxes by the recycle bin or dumping bulk items in the corral or any other thing that does not seem as though it is ok for the community, you should speak up. Do not assume no one will listen or that it doesn't matter. Don't forget that some of these things will take money from your pocket.
